***Allowable Subject Matter***

1. The following is an examiner's statement of reasons for allowance:

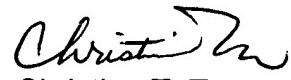

The present invention pertains an apparatus and a method for generating a mode activation signal in response to an input signal. The prior arts, however, do not teach the mode activation signal generating circuit or the method thereof comprising the combination features of comparing the voltage of the input signal to the voltage of a first and a second power supplies, where the voltage of the input signal exceeds the greater of the voltages of the first and the second power supplies, generating in response thereto an active mode activation signal. Hence, the prior arts of record do not anticipate nor render obvious the claimed inventions. Thus, claims 1-71 are allowable over the prior arts of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christine T. Tu whose telephone number is (703)305-9689. The examiner can normally be reached on Mon-Thur. 8:30am-6:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Albert DeCady can be reached on (703)305-9595. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
